This channel asks if anyone can help the person trying to convert an xvid or divx files (avi and mpeg), to an format that will work on DVD players. The converter is supposed to be free. I know a bunch of people that need help with this, they don't know how to use 3rd party CD burning software. We are not Windows Wizards. We support EVERY OS. We don't know how to use Windows Wizards, nor Windows XP Burning, so we can't use that. LAME is one of the software we need for our conversions. There are many other software needd from us but we can "not" use them. LAME can be downloaded for free at [www.apple.com/downloads/software.html](http://www.apple.com/downloads/software.html) 5ec8ef588b
